

PIONEERS OF AMERICAN LANDSCAPE DESIGN

Index

Note: Following the publication of *Pioneers of American Landscape Design*, LALH editors realized that a comprehensive index to the book would be a useful resource for readers searching for places, individuals not represented by specific essays, or connective themes. With this in mind, we commissioned an index comprising more than 2,500 entries, to be available as a downloadable document from our website.

This project was initiated with a gift from LALH Trustee Elizabeth Barlow Rogers and completed with generous donations of time and editorial acumen from Mary Bellino.
